REVIEW OF MARKETS

Stocks, Money, Exchange, Bonds, Grain, Cotton, Provisions, Etc.

These Are Closing Sales Each Day.

New York, July 17.—Business continues in large part in professional hands. The general list was rather neglected and its price movements were unimportant, but net gains were generally registered at the close of the day. The tone of the market at the close, however, was rather easy and dull at concessions from the best. Union Pacific was the most conspictuous stock in the list, and resumed its upward movement early in the day. A period of dullness and relapse followed the higher opening, which was apparently due to the check to the upward tendency in Battimore and Ohio. The market maintained an attitude of indifference for some time to the rapid advance scored, first by Brooklyn Transit and later by Sugar, the first rallying 3½ from early depression and the other rising nearly four points. The movements were due to the demand from the shorts, who were disturbed by the apparent willingness of inside interests in Brooklyn Transit to see the stock go down and by reports of large profits in sugar refining at the present level of prices.

The upward movement in railroad stocks was renewed after midday under the stimulus of these special movements. The Grangers, Southwesterns and Pacifics advanced very generally from 1 to 1½ points and St. Louis and San Francisco first preferred jumped 2½ on a few transactions. Money on call and for short time loans continues easy and abundant, but leaders are indisposed to place loans for the longer periods.

The bond market was dull to-day and the movement of prices continues

#### The Cotton Markets.

NEW YORK COTTON MARKET.

New York, July 17.—Except for a few minutes around the opening, the bear faction had things on the Cotton Exchange all its own way to-day, and hammered prices down to the lowest figures touched in weeks. The August option was by far the most susceptible to the list and fell to 8.5.

hammered prices down to the lowest figures touched in weeks. The August option was by far the most susceptible on the list and fell to \$85.

The market opened steady in tone, with prices 2 to 5 points higher on room covering and light investment demand, founded on a steadier feeling in Liverpool than expected. The demand was soon gratified and then the market began to feel the effect of bear pressure. Point by point values eased off until holders became panie stricken, and dumped over great blocks of summer and late month deliveries.

Rumors gained circulation to the effect that an influential long interest in New Orleans was tottering on the ragged edge and might collapse at any moment. Shortly after midday the storm of liquidation and bear speculation seemed to reach its height, and from then on the market was not only quieter, but developed considerable recuperative energy on brisk profit-taking.
